

# Disruptive Bioenergy Technologies: Delivering Decarbonisation of Industrial Processes Through Digitalisation

22 February 2022 | 11:00 - 12:30 CET | Webinar

## Agenda

### Disruptive bioenergy technologies: delivering decarbonisation of industrial processes through digitalisation

22 February 2022 | 11:00 – 12:30 | Webinar (register [here](#))

- |       |   |
|-------|---|
| 11:00 | <b>Introduction</b><br>Irene di Padua, Policy Officer, Bioenergy Europe   |
| 11:05 | <b>Keynote Speech</b><br><b>The new EU ETS: a powerful driver for industry decarbonisation</b><br>Marina García Alonso, Policy Officer, European Commission, DG Climate Action  |
| 11:15 | <b>Presentation</b><br><b>Decarbonising process heat for industry: the role of biomass</b><br>Jaap Koppejan, Managing Director, ProBiomass BV   |
| 11:25 | <b>Q&amp;A</b>  |
| 11:35 | <b>Roundtable Discussion</b><br><b>Innovative bioenergy enabling industrial decarbonisation</b><br>Philip Nuyken, Head of Energy and Climate Policy, German Lime Industry Association - BVK<br>Christiane Egger, Deputy Managing Director, OÖ Energiesparverband<br>Shalini Graham, Lead R&D Chemical Engineer, Perpetual Next<br>Tuomas Petänen, Head of Energy Segment, Industrial Internet, Valmet |
| 12:25 | <b>Conclusions</b><br><b>Green and digital energy transition with innovative bioenergy technologies</b><br>Irene di Padua, Policy Officer, Bioenergy Europe   |
