The technological revolution - How technology is innovating the efficiency & quality of pellet production

9:00am
Welcome Coffee

9:30am
Welcome Speech
Gilles Gauthier, Bioenergy Europe

New Technological Aspects and Ideas in Biomass Processing
Werner Sitzmann, Kahl

Energy Efficiency of Drying Sawdust & Woodchips
Gerald Kreuzhuber, Muehlboeck

Innovation in Pellet Production
Peter Lange, CPM

Next Generation Die Design
Torben Poulsen & Simon Klinge Nielsen, Andritz

Coffee Break

12:30pm
Lunch break

Ceramic Grease in Pellet Production
Holger Streitz, Batthan

Wheat and Wood - a Perfect Bind!
Carsten Mergelmeyer, Crespel and Deiters

Silometric - a Sensor System for Pellet Silos
Alexandre Llusera Paredes, MCSystems®

Quality Control in Pellet – Fully Automatic Measurement System
Martin Englisch, BEA

ENplus® - Market Update & Future Development
Gilles Gauthier, Bioenergy Europe

Panel Debate
Didzis Palejs (CM Biomass)
Remigijus Lapinskas (World Biomass Association)
Matthieu Campargue (RAGT) TBC
Peter Lange (CPM) TBC
Torben Poulsen (Andritz) TBC
Werner Sitzmann (Kahl) TBC
Moderator - Gilles Gauthier, Bioenergy Europe

15:30pm
End of Conference
