

Programme

The European Bioenergy Landscape

18 January 2023 | 10:00 – 12:00

Press Club, Rue Froissart 95, 1040 Bruxelles

- 10:00 Welcome coffee
- 10:30 Introduction
- 10:35 **The Dynamic Role of Bioenergy in the EU Energy System**
Delving into the latest statistics and insights of the EU's (bio)energy system, uncovering its potential to drive energy independence, economic growth and to achieve climate and energy targets by 2050.
Jérémie Geelen, Market Intelligence Director, Bioenergy Europe
- 11:00 **Sustainable bioenergy in the transition, from energy system modelling to nature conceptualization.**
From feedstock to final uses and related systemic implications, opening the debate on our conceptualization of nature and energy today.
Martin Colla, PhD Candidate in Sustainable Energy, UCLouvain & VUB
- 11:15 **Cultivating Change: Paving the Way towards Sustainable Bioenergy for Industries**
From REDII certification to sustainability criteria, exploring challenges and opportunities to balance economic growth with environmental responsibility.
Esther Bustillo Vazquez, Project Engineer, ENGIE Laborelec
- 11:30 **Panel debate**
Moderator: tbc
- Panelists**
Esther Bustillo Vazquez, Project Engineer, ENGIE Laborelec
Martin Colla, PhD Candidate in Sustainable Energy, UCLouvain & VUB
Jérémie Geelen, Market Intelligence Director, Bioenergy Europe
